

Download Business Objects Xi R3 Step By Step Designer Guide

This article will help you understand the basics of ALE and IDocs via a simple do-it-yourself example. We will create a custom IDoc in one SAP system and then post some business data through it to another SAP system. Business data will be picked up from custom data dictionary tables. Topic Area Description Last Updated; Topics: ABAP Connectivity. Learn about ABAP connectivity technologies for remote SAP- and non-SAP systems which include usage of internet protocols like HTTP(s), TCP(s) and data formats like XML and SAP protocols and formats like RFC/BAPI, IDoc and ALE/EDI. Here's a list of common errors/problems in SAP XI and their possible resolutions. This Guide will help you troubleshoot your integration scenarios in SAP XI/PI. So unless you have Auditing running you cannot get this report!?! That is very poor since you are able to identify failed instances using the Instance Manager I would think that you could get a report to do the same instead of this additional step.
