

Download Coleman Rv Air Conditioner Guide

The Standard Coleman: The primary Coleman air conditioner for RV use is the standard Coleman 13500 BTU RV air conditioner. This 90-pound model installs on the roof of the RV near the ceiling vent. It's a large unit, but by most accounts easy to install and long-lasting. It's currently priced on Amazon and elsewhere just under \$650. The Coleman Mach 15+ is another great RV roof air conditioner that is perfect for mobile living. Although it is larger than the Dometic Brisk II, it still fits perfectly into a 14 by 14 vent space. Below are some of the features of the Coleman Mach AC unit. With Coleman Air Conditioners, you can be rest assured you are getting a great brand name with the quality to back it up. Whether you are looking for a 15,000 BTU air conditioner, or a low profile ceiling unit for your RV, we have you covered with our discount prices and fast shipping. Raised lance fins and larger than average evaporator and condenser coils mean the system dissipates heat more effectively than lesser RV air conditioner units. Easy installation on any standard 14 x 14 vent opening makes the Mach 15+ Coleman RV air conditioner adaptable to most every contemporary RV.
