Aspect. Description. Introducing the Sequence Diagram. The Sequence diagram is one of the Unified Modeling Language (UML) Behavioral diagrams that can be used to define the time ordered flow of messages between elements. Class Diagram. The Class diagram captures the logical structure of the system - the Classes - and things that make up the model. It is a static model, describing what exists and what attributes and behavior it has, rather than how something is done. StarUML 5.0 User Guide. Copyright © 2005 Minkyu Lee.
